PORT DICKSON

FOR MEDIA RELEASE

169 EGGS BY A SINGLE HAWKSBILL SEA TURTLES COLLECTED AT PD WATERFRONT, THE MOST EGGS LAID IN THE HISTORY OF PORT DICKSON

Port Dickson, Negeri Sembilan, Aug 14, 2024 – D'Wharf Hotel & Serviced Residence, an associate Company to TSR Capital Berhad, is thrilled to announce a significant milestone in the preservation of marine life. For the first time, 2 hawksbills sea turtles have nested on the beach of the resort at PD Waterfront with the first sea turtle has laid 154 eggs and the second sea turtle at 169 eggs, marking an extraordinary moment for the property and the Port Dickson community.

The sea turtles, a member of an endangered species, came ashore during the early hours of July 20th and Aug 3rd and according to the Licensed Turtle Ranger, Hishamudin Abd Manap, this is the most eggs collected in the history of Port Dickson and he expected both the turtles will come back again to lay their eggs in these few days.

"We are incredibly honoured that these majestic sea turtles have chosen our beach to lay its eggs," said Andy Chong, General Manager of D'Wharf Hotel & Serviced Residence. "This event underscores our commitment to environmental conservation and the preservation of marine ecosystems. We are dedicated to ensuring the safety of the eggs and supporting the hatchlings when they emerge."

This rare occurrence highlights the importance of conservation efforts and showcases the natural beauty of our coastal environment. In collaboration with local wildlife authorities and conservation experts, D'Wharf Hotel & Serviced Residence has taken immediate steps to protect the nest, including setting up a secure perimeter and monitoring the site to ensure the eggs remain undisturbed.

The resort is also planning educational activities to raise awareness among guests about the significance of sea turtle conservation. This event adds to the unique experience for guests staying at D'Wharf, offering a rare opportunity to witness the natural wonders of the marine world up close. The hotel remains committed to promoting sustainable tourism practices and will continue to support conservation initiatives that protect wildlife and their habitats.

As we await the hatching of the sea turtle eggs, expected in the coming weeks, D'Wharf Hotel & Serviced Residence invites the public to join them in celebrating this remarkable event. Updates and further information will be shared through their official channels at www.dwharfhotel.com, Instagram, Facebook and TikTok.
